Student

Summary

I am the type of person that is into a continuous evolution, driven by an increasing appetite for knowledge and learning to assimilate valuable information, open to new visions and mentalities. I am a very ambitious and happy person, flexible in ideas and able to take risks.

Principal subjects covered

- JavaScript: Nodejs
- Type Script: Angular
- Express
- Python: Flask
- C++
- MySql
- MongoDB: Mongoose
- SQLAlchemy
- Wtforms
- HTML
- Selenium
- Protractor

Work experience

10/2021 - present	<p>QA Tester</p> <p><i>Housenia Studio SRL</i></p> <p>I have learn how to automate(Selenium, Protractor) a lot of websites also I learned how to write a bug how to find a bug how to create test cases in Jira and the most important think I've learned was to work in a team</p>
05/2021 - 8/2021	<p>Glovo-Courier</p> <p><i>Osan-Paul SRL</i></p> <p>As a Glovo courier, I learned that punctuality is one of the most important qualities, at the same time I could say the same thing about the ability to communicate and common sense.</p>
12/2020 - 01/2021	<p>It Administrator</p> <p><i>Industrial Park Automecanica Medias Romania</i></p> <p>Practice internship</p>
08/2019 - 10/2019	<p>Cargo Handler</p> <p><i>Konsta Splendid Medias</i></p> <p>As a cargo handler, I had the responsibility to unload the goods at the Splendid stores in Medias and at TransAgape Sibiu, it was a job that required a lot of physical effort, as well as the stress of finishing until 16:00, because some stores no longer received the goods after this time. During this period I managed to discover the importance of teamwork.</p>

Education

09/2014 - 07/2018	<p>High School</p> <p><i>Liceul Teoretic Axente-Sever, Medias</i></p>
-------------------	---

I finished the Axente-Sever Medias Teroretic high school, intensive mathematics-informatics profile. In high school I discovered my little passion for computer science. I studied the language: C++ and a lot of maths.

10/2018 - 7/2021

University

University Lucian-Blaga of Sibiu

Here at Lucian-Blaga University of Sibiu I have finished Faculty of Computer science.

Projects

- Java Game "Tower of Hanoi"
- A web application that monitors the database "add, delete, update" data of a cardboard company: Python, Flask, WTForms, MysqlAlchemy, Bootstrap.
- A shop site: Php, Html, Css, Bootstrap
- Minesweeper: Python game
- Order-queue: c ++ (similar to McDonald's order display)
- Ecommerce Site: MEAN (MongoDB, Express, Angular, NodeJs)

Social skills and competencies

- I have well developed communication and interaction skills.
- I possess the ability to collaborate with other people in order to accomplish an objective.
- I'm always open to other ideas, but at the same time I like to convince others of the value of my own ideas.

Computer skills and competencies

- Known programming languages: C#, C/C++, Python, SQL, Php, JavaScript
- Development environments I worked with: Visual Studio, Visual Studio Code, MySQL, SQLite, MongoDB, PhpMyAdmin.

Language Competence Levels

English: B1,B1,B1,B1,B1

Driver Licence

- AM
- B1, B
